

JIRA2SAP™

BRING TWO WORLDS TOGETHER

“Stop looking for solutions to problems and start looking for the right path!”

Andy Stanly

WHY JIRA2SAP™

Separated JIRA and SAP causing multiple issues:

- + Wasted employee productivity
- + Labor-intensive and manual tasks of re-entering and reconciliation of data
- + Increased number of errors
- + Customer dissatisfaction
- + Lack of real-time visibility

ADVANTAGES OF USING JIRA IN SAP

- + Process efficiency
- + Time and cost savings
- + Agile integration
- + User friendly interface
- + Consolidate data in ERP
- + Notifications for all members
- + Progressive reporting and planning

JIRA2SAP™ -

COMBINE THE BEST OF TWO WORLDS

BENEFITS OF JIRA2SAP™

- + Flexibility and quick integration
- + Fully customized process
- + Effective management of both systems
- + Easy data mapping incl. customer fields
- + Server and cloud JIRA instance
- + Advanced logging module with monitoring
- + Error handling

WAYS IN WHICH JIRA2SAP™ STRENGTHENS YOUR ORGANIZATION

- + Efficient work environment
- + Improving business intelligence
- + Improving corporate resource
- + Increasing expandability
- + Consolidating foundation
- + More analytics

UP TO 90% COST SAVING USING JIRA2SAP™ FOR COMBINING TWO SYSTEMS

“A lot of times, people don’t know what they want
until you show it to them”

Steve Jobs
